WIVADEV CELEBRATES THE INTERNATIONAL DAY OF THE GIRL CHILD AT G.H.S MILE 16

On October 11, 2024, WIVADEV proudly celebrated the International Day of the Girl Child with impactful outreach at GHS Mile 16 Bolifamba and St. Bernard High School Buea. We extend our heartfelt gratitude to the administrations of both schools for their invaluable collaboration, which made this important event possible.

During our sessions, we highlighted the significance of girls having a vision for their future, emphasizing how this vision can transform not only their lives but also their communities. We also engaged the boys in discussions about the critical importance of respecting girls and the need to prevent abuse. This education is essential in combating issues like teenage pregnancy and single motherhood, which can severely limit opportunities for a for girls in future.

Our mission was to foster a nurturing environment where both girls and boys can thrive together, empowering the next generation to build a more equitable and supportive community.

It was a pleasure partnering with the Administration of GHS Mile 16 and St. Bernard High School, Women for Development Ladies of substance Women Advancing Nations Celine's Teacher and Lord's foundation - Cetalf to make this happen. Kudos to you all, it was a great team.

You can join us to push this vision as we enter the execution phase. Contact us via any of the numbers on the flyer or write to us via any of our social Media Handles.
